 Streams and workshops simultaneously in the morning followed by a closing plenary session and reception.

Day 4 training sessions, 27<sup>th</sup> September  
 More information on the specific training sessions will follow soon. Separate registration for the training sessions is needed.

*"I was more than happy with NCT: CBRNe Asia 2012. The event took place in an ideal setting and we had our portable decontamination equipment used by the Royal Thai Government during the CBRN demonstration. The Royal Thai Government was very professional and demonstrated our equipment very well. Since the demonstration took place we have received numerous enquiries on our technology."*  
 David Crouch, Product Manager, Pursuit Dynamics

*"NCT: CBRNe Asia 2012 was an outstanding conference and looks to be very beneficial to my company in conducting business throughout the Asia/Pacific Region."*  
 Larry Sproat, RSDL Manager for Asia Pacific Region

Those who attended are already looking forward to next year's NCT: CBRNe Asia!

IB Consultancy is proud to announce Asia's premier CBRNe event, The Non-Conventional Threat: CBRNe Asia 2013, which will take place on 24 to 27 September 2013, in Le Méridien Kuala Lumpur, Malaysia. Building on the highly successful 2012 conference, exhibition and CBRN demonstration, NCT: CBRNe Asia 2013 will expand its scope by including focused interactive training-workshops, live product demonstrations and the NCT CBRNe Awards. The conference will include high-level speakers from Asia, Europe, Middle East and the USA.

All pictures were taken at NCT CBRNe Asia 2012

NCT CBRNe Awards

IB Consultancy is delighted to announce the NCT CBRNe Awards. These will be awarded in five categories for products and companies that have had a significant impact on the CBRNe community. An international jury of civil & military end-users, R&D experts and journalists will be selecting products from different categories. Winners will be announced during the NCT: CBRNe Asia 2013 Award Ceremony and Gala Dinner and will be extensively promoted. Details upon how to enter will be published in January 2013 on [www.cbrneasia.com](http://www.cbrneasia.com).

*The NCT: CBRNe Asia 2012 event that IB Consultancy conducted in Bangkok was a superb display of meticulous planning and precision execution all done with élan.*  
 Dr Ram Athavale, CBRN Security Specialist, India

Key figures from last year's event

On September 3 – 6 2012 IB Consultancy held Asia's premier CBRNe event, The Non-Conventional Threat: CBRNe Asia 2012, in Bangkok, Thailand with close to 300 delegates. The four-day show brought together representatives from over 30 different countries, including Thailand, Vietnam, Malaysia, Indonesia, Singapore and India through to Europe as well as the USA and Canada.

- 300 delegates from 30 countries and 6 official delegations
- 30 high level presentations on CBRNe from top level experts
- 30 exhibitors showcasing their latest products
- Over 4 Million Singapore \$ in sales at the event
- All sponsors ranked NCT as equal and in 70% as better than any other CBRNe event
- Average event appreciation was 9 (on a 1-10 scale)
- Supported by The Royal Thai Government, Interpol and the European Commission

In a changing world all developed countries are facing new NBC threats. Not only conventional methods of warfare attacks are assumed, but also more and more disastrous terrorist attacks have to be faced. The role of first responder systems has gained a new level, which requires immediate action by peace keeping and counterterrorism task forces. Nowadays their mission clearly means to be prepared for asymmetric and fast arising NBC threats. Reliable support can only be achieved by using flexible, high performance NBC equipment. Bruker Daltonics is for over 20 years worldwide leading in NBC detection equipment. State-of-the-art technology, ruggedized design and modular accessories allow flexible and extensive applications for the detection of hazardous compounds by mounting the systems on reconnaissance vehicles, ships, helicopters, shelters or by hand-held use under field conditions.

Prometech is a Dutch SME startup aimed at homeland security software. Although brand new, its founders each have over 10 years experience in software development. Currently, Prometech is working on a homeland security software package that is focused on decision support for first responders. Prometech works at the REACT project, which is initiated by the Ministry of Economic Affairs and the municipality of The Hague, in which a CBRN occupied area can be mapped, and support for evacuation protocols and first responder deployment can be made.
