DIARY

UPCOMING EVENTS

www.cbrne-terrorism-newsletter.com

C²BRNE-DIARY

Are you organizing a CBRNE-related event? We are interested to become media partners!

What we offer:

- Include a text with photos at the "Upcoming Events" chapter of the Newsletter and keep it there until the conference, workshop, etc;
- Include a full page (or more) of the event in the same or related chapters of the Newsletter (it must be in high resolution .jpg format);
- Incorporate a banner at the home page of the Newsletter with a link to event's website.

What we would like to be offered:

- Inclusion of Newsletter's logo in the website of the event;
- Inclusion of Newsletter's logo in the final program of the event;
- Inclusion of a small text about the Newsletter along with the URL of the Newsletter.

► For more details please contact the Editor-in-Chief at: igalatas@yahoo.com

Headlines for 2019 conferences

1) Defence & Security Equipment International (DESI)

ExCel, London, United Kingdom, 10-13 September 2019

- An event that brings together representatives from the global defence and security sectors to [showcase](#) the latest in equipment and systems.
- DESI 2019 will focus on five sector-focused zones - air, land naval, security and joint.
- The DESI 2019 Strategic Conferences (Day Zero) will take place on 9 September, 2019.

2) AUSA Annual Meeting and Exhibition

Walter E. Washington Convention Center, Washington DC, USA, October 14-16, 2019.

- The largest [land warfare trade-show](#) in North America, featuring 26,000 registrants from all over the world. Including senior army leaders, top industry members and leading manufacturers.
- The event provides an opportunity for 700+ exhibitors to launch and showcase new products.
- Attendees will be able to see, and try, a vast selection of the latest equipment, machinery, tools and technologies.

2019 American Ambulance Association (AAA) Annual Conference & Trade Show

November 04, 2019 to November 06, 2019

Location: Nashville, TN

Ambulance services are stretched in the face of diminishing reimbursement and an increasingly uncertain political and regulatory climate. Join fellow Emergency Medical Services

C²BRNE DIARY – July 2019

(EMS) leaders at AAA 2019 to share best practices and build strategies for the survival of the industry by reimagining EMS reimbursement, operations, leadership, and human resources.

**EUSEM 2019**

The European Society for Emergency Medicine (EUSEM) has the honor to invite you to participate in the 13th European Emergency Medicine Congress in the city of Prague. This unique annual event is the major educational activity organized in Europe for emergency medicine (EM). Every year the Congress puts together professionals from the in and out of the hospital EM.

At the congress, you will have the opportunity to share your experiences with colleagues from more than 70 different countries, broaden your knowledge through the presentations of more than 200 leaders in the different fields. Participants will be exposed to the state of the art of the actual hot topics of EM. On-hands education is a relevant part of the meeting, encouraging your individual or team participation in the different training course and simulation activities.

On this occasion, we will celebrate EUSEM's 25th anniversary and we are proud to say that this International non-for-profit Organization is growing in the right direction to reach its objectives. Actually EUSEM is representing more than 37 National Societies. We are close to reaching our main mission, the development of emergency medicine as specialty of its own. At EU level, all member countries have the specialty, at different stages of evolution, except for three with good perspectives at least in two for the following year.

The EUSEM annual Congress offers an extraordinary opportunity for several of our goals; it is a melting pot for research and educational projects on an international level. It promotes international collaboration in the field of Emergency Medicine, facilitating practice and knowledge transfer. The meeting creates the seeds for networking creation and cooperation between national associations for Emergency Medicine.

Luis Garcia-Castrillo (Spain)
EUSEM President

13th CBRNe Protection Symposium – Science for Safety and Security

September 24 - September 26
Malmö, Sweden

The CBRNe Protection symposium is aimed for engaged professionals within the CBRNe-protection field. As the world is constantly changing, this symposium is changing too. The CBRNe Protection Symposium, formerly known as the CBW Protection Symposium, has now grown to include the areas of protection against radiological, nuclear and explosive warfare agents along with the former chemical and biological warfare agents.

An exhibition of CBRNe protection equipment will be arranged in connection with the symposium, where industry will show their latest products. The exhibition will offer a good opportunity for the symposium participants to make themselves acquainted with commercially available state-of-the-art equipment related to CBRNe protection

The 13th CBRNe Protection Symposium and the Exhibition of CBRNe protection equipment will be held at MalmöMässan Exhibition and Conference Center.

C²BRNE DIARY – July 2019

NCT Asia 2019

October 22 – October 24

The long awaited NCT Asia is coming back to Kuala Lumpur for its 12th edition in the region from the 22nd-24th of October, 2019! In collaboration with the National Defense University of Malaysia, we will

host the largest CBRNe, C-IED and EOD conference of the region with a parallel conference & workshop stream, welcoming high-level decision-makers, civil and military operators, as well as industry experts relevant to combatting Non-Conventional Threats. In line with its last

C²BRNE DIARY – July 2019

editions, NCT Asia 2019 will be welcoming delegations from Malaysia, Singapore, Indonesia, Japan, Myanmar, and South Korea, amongst many others!

The event will kick start with a live capability demonstration and will host the famous NCT Networking Reception. Program themes are based off the most relevant topics in the region such as CBRNe Aviation Security, CBRN Incidents including VX and Novichok, and nuclear emergencies. Join us for the must-attend CBRNe, C-IED and EOD event in Asia of 2019, and get insight into the latest, relevant state-of-the-art technologies!

Malaysia is one of the most developed countries in Southeast Asia when it comes to CBRNe. In the wake of the assassination of Kim Jong-nam at Kuala Lumpur International Airport using the highly-lethal VX nerve agent, Malaysian authorities have been on high alert regarding future CBRNe threats. Furthermore, the theft of a radioactive device containing Iridium-192 from the back of a pick-up truck has only highlighted the importance of raising CBRNe awareness in the region. Whilst Malaysia has well trained personnel and experts in both the military and civil spheres, it remains imperative that we discuss and share knowledge on the constantly evolving CBRNe threat and how we may prevent as well as respond to them through international cooperation.

CBRNe Summit Asia 2019

Bangkok, Thailand

3rd December 2019 - 5th December 2019

We are pleased to announce our 3rd annual CBRNe Summit Asia conference & exhibition which will take place in Bangkok, Thailand on the 3-5 December 2019. CBRNe threats in the region are becoming a

great concern to the local governments. With more threats being faced to civilians our event would provide you a great opportunity to hear from the region's leading CBRNe units.

Asia is a continent that is developing city infrastructures and the threat of CBRNe attacks has increased with many governments and armed forces creating strong CBRNe countermeasures and training personnel on CBRNe response techniques.

Natural disasters are a regular occurrence in Asia, and this increases the likelihood of infectious diseases which can spread easily amongst the general population. There is an importance to recognize diseases that can spread and make sure medical centers, emergency services and military personnel have availability to medical countermeasures.

Why Attend?

- Opportunity to meet with leading CBRNe officials across Asia-Pacific
- Discuss the latest CBRNe threats faced across Asia
- Analyze the latest medical countermeasures to infectious diseases
- Review the CBRNe capabilities of Asia-Pacific armed forces and emergency services
- Understand the latest technologies that have been developed to assist first responders

C²BRNE DIARY – July 2019

To be part of our international CBRNe Summit Asia conference & exhibition either as a speaker, sponsor, exhibitor or delegate please contact us either by telephone +44 (0)1582 346 706 or email events@intelligence-sec.com

CBRNe Summit Europe 2020

Brno, Czech Republic
21st April 2020 - 23rd April 2020

CBRNe Summit Europe is returning to Brno, Czech Republic for our 7th annual event. Many major cities across Europe have faced critical incidents over the past few years. With terrorism threat levels high across Europe and the

increased use of chemical agents being used by terrorist organizations this is a key event to attend.

During our international event you will hear perspectives from military and civil officials who deal with CBRNe incidents. Many governments across the region have realized the importance of CBRNe capabilities and preparedness and budgets have been increased to deal with the new type of threats faced to civilians.

CBRNe Summit Europe will focus on a number of key topics across the whole CBRNe domain such as CBRNe capabilities of military and civil agencies, first responder techniques, asymmetrical threats, medical countermeasures to chem-bio threats, decontamination developments and techniques, countering IED's, CBRNe threat intelligence, CBRNe forensics and many more.

Why Attend?

- Discuss the latest CBRNe threats faced across Europe
- Analyze major incidents that have taken place in recent years
- Understand the developments of first responder techniques
- Review the medical countermeasures to chem-bio threats
- Debate asymmetrical threats and the seriousness of the threats
- Network with leading CBRNe vendors in the vibrant exhibition hall

C²BRNE DIARY – July 2019

To be part of the largest gathering of CBRNe professionals in Europe please contact us via email at events@intelligence-sec.com or by phone +44 (0)1582 346 706 and we will be happy to provide you further information on how you can participate either as a speaker, sponsor/exhibitor or as delegates.

Dear CBRN professionals,

On behalf of the Republic and canton of Geneva, it is a privilege to invite you to the CBRN Conference in Geneva on the 11th and 12th of November 2019.

This year's summit is timed to coincide with the Franco-Swiss joint security exercise taking place at the Geneva Stadium on the 13th of November. A simulated CBRN incident happening in the city will provide you the opportunity to witness first-hand, interventions by our specialized civil and military response units. These men and women will be working hand-in-hand with their French counterparts who are our neighbors and most valued partners in this exercise.

The CBRN 2019 Conference in Geneva will place emphasis on partnerships and working together. It will demonstrate how a multi-national response, focusing both on preparedness and the capacity to operate at multiple levels, is the prerequisite to a successful joint operation.

As State Counsellor responsible for labor, health and security related matters, I am acutely aware of the chemical, biological, radiological and nuclear hazards to which the canton of Geneva is potentially exposed both at military and civilian levels. Such materials improperly handled can seriously undermine the security and prosperity of our state and our country.

The CBRN 2019 Geneva Conference will offer us valuable opportunities in which to examine all aspects of CBRN defense technology and risk assessment, as well as tactics, training, readiness and the interoperability of our response units.

While the CBRN threat is evolving rapidly, so are the means and opportunities for States to devise and deliver up-to-date defense and protection strategies. I welcome the opportunity for the canton of Geneva to host the debates and discussions within the CBRN 2019 Conference, as well as to provide a platform for the joint exercise, designed to sharpen our resolve and ability to rise to the daunting challenges posed by CBRN materials to our collective safety and security.

I look forward to your being part of this common endeavor and to welcoming you this autumn in Geneva.

Yours sincerely,

Hon. Mauro POGGIA
State Counsellor, Department for Security, Labor and Health (DSES)
Republic and canton of Geneva

C²BRNE DIARY – July 2019

The 2019 World Border Security Congress:

Over 250 delegates

52 countries represented

Director / Heads of Agency – 32

Deputy Director/Heads of Agency – 13

Director / Heads of Dept/Division – 68

Deputy Director/Heads of Dept/Division – 21

Senior Officials / Program Managers – 79

Embassies – 19

The 2019 World Border Security Congress thanks for the support of the *Ministry of Interior of Morocco, Directorate General for Border Surveillance & Migration, Organization for Security & Co-operation in Europe (OSCE), African Union ECOSOCC (AU-ECOSOCC), European Association of Airport & Seaport Police, International Security Industry Organization, National Security & Resilience Consortium and International Association of CIP*

.Current Border Security Challenges:

- Migration Crisis Tests European Consensus and Governance
- Migrants and refugees streaming into Europe from Africa, the Middle East, and South Asia
- Big Business of Smuggling Enables Mass Movement of People for Enormous Profits
- Climate Change and Natural Disasters Displace Millions, Affect Migration Flows
- Europe and the United States Confront Significant Flows of Unaccompanied Child Migrants
- Tackling Southeast Asia's Migration Challenge

C²BRNE DIARY – July 2019

- ISIS threatens to send 500,000 migrants to Europe
- Border Skirmishes Resonate in National Domestic Politics
- Women’s Labor Migration from Asia and the Pacific

As we see the continued escalation of the global migration crisis, with mass movements of people fleeing the war zones of the Middle East as well as illegal economic immigration from Africa and elsewhere, international terrorism shows every sign of increasing, posing real threats to the free movement of people.

The world is expected to see a continuation of the migration challenges for the border management and security community, as little sign of peace and security in the Middle East is apparent and porous borders in Africa continue to provide challenges.

International organized criminal gangs and human and drug trafficking groups exploit opportunities and increasingly use the internet and technology to enhance their activities.

Controlling and managing international borders in the 21st Century continues to challenge the border control and immigration agencies around the world. It is generally agreed that in a globalized world borders should be as open as possible, but threats continue to remain in ever evolving circumstances and situations.

Advancements in technology are assisting in the battle to maintain safe and secure international travel.

The border security professional still remains the front line against these threats.

The World Border Security Congress is a high level 3-day event that will discuss and debate current and future policies, implementation issues and challenges as well as new and developing technologies that contribute towards safe and secure border and migration management.
