C²BRNE-DIARY

Are you organizing a CBRNE-related event? We are interested to become media partners!

What we offer:

- Include a text with photos at the "Upcoming Events" chapter of the Newsletter and keep it there until the conference, workshop, etc;
- Include a full page (or more) of the event in the same or related chapters of the Newsletter (it must be in high resolution .jpg format);
- Incorporate a banner at the home page of the Newsletter with a link to event's website.

What we would like to be offered:

- Inclusion of Newsletter's logo in the website of the event;
- Inclusion of Newsletter's logo in the final program of the event;
- Inclusion of a small text about the Newsletter along with the URL of the Newsletter.

► For more details please contact the Editor-in-Chief at: igalatas@yahoo.com

Headlines for 2019 conferences

1) Security & Policing Home Office Event

International Exhibition and Conference Centre, Farnborough, United Kingdom, 5-7 March, 2019

- Featuring a live demo area, [immersive experiences](#), briefing sessions and a government zone.
- Providing an opportunity to meet, and network with, UK suppliers and government officials and providing a setting for collaboration, testing and showcasing.

2) CBRNe Convergence Canada

Hilton, Lac Leamy, Ottawa, Canada, 15-17 April, 2019

- [CBRNe Convergence](#) provides a showcase for leading speakers in the fields of WMD, HazMat, pathogens, toxic substances, chemical attacks and biological weapons
- Based around the theme of the merging of civilian and military response
- Streamed sessions will enable participants to select the presentations that best suit their needs. Previous events have featured insights from organizations including NATO, Interpol and the FBI.

3) NCT Europe

Venue TBC, Vienna, 25-27 June, 2019

- A [three-day event](#) that will showcase a range of multinational CBRNe capability demonstrations including live C-IED and EOD exercises, workshops for civil and military personnel, an annual conference and an indoor/outdoor industry exhibition.
- The NCT Plenary will present insights from a panel of industry experts from the USA, UK, Asia and Europe.

4) IDEF 14th International Defence Industry Fair

TUYAP Fair Convention and Congress Center, 7-10 May, 2019, Istanbul, Turkey

- An annual event dedicated to the [Euro-Asian defence](#) industry and covering the areas of naval, land, transportation, logistics support activities, aviation, aerospace and equipment.

C²BRNE DIARY – January 2019

- Topics will include electronic warfare technologies, armoured fighting vehicles, air defence systems, civilian security systems, military medical equipment and self-protection systems.

5) International Hazardous Materials Response Teams Conference**Hilton Baltimore, Maryland, USA 13 - 16 June, 2019**

- Providing the latest classroom, hands-on and field-trip based training on the latest developments of relevance to hazardous materials responders.
- The [event](#) will cover all aspects of HazMat response, from transportation, safety, and equipment to WMD, mass terrorism, decontamination, bioterrorism and more.
- A HazMat exhibit floor will include demonstrations of hazardous materials equipment.

6) Defence & Security Equipment International (DESI)**ExCel, London, United Kingdom, 10-13 September 2019**

- An event that brings together representatives from the global defence and security sectors to [showcase](#) the latest in equipment and systems.
- DESI 2019 will focus on five sector-focused zones - air, land naval, security and joint.
- The DESI 2019 Strategic Conferences (Day Zero) will take place on 9 September, 2019.

7) AUSA Annual Meeting and Exhibition**Walter E. Washington Convention Center, Washington DC, USA, October 14-16, 2019.**

- The largest [land warfare trade-show](#) in North America, featuring 26,000 registrants from all over the world. Including senior army leaders, top industry members and leading manufacturers.
- The event provides an opportunity for 700+ exhibitors to launch and showcase new products.
- Attendees will be able to see, and try, a vast selection of the latest equipment, machinery, tools and technologies.

**Security & Counter Terror Expo – London, United Kingdom****Venue:** Olympia, London**Organiser:** Clarion Events Limited**Date:** 05/03/2019 – 06/03/2019

Security and Counter Terror Expo (SCTX) is the UK's leading national security event for professionals tasked with protecting nations, infrastructure, businesses and people against terrorism. SCTX is committed to the UK's CONTEST strategy and runs in close correspondence with the UK's National Police Chief Council (NPCC) and Counter Terror Policing (CTP).

WADEM Congress on Disaster and Emergency
Medicine

7-10 May 2019 • Brisbane, Australia

CBRNE
Special Interest Group

WADEM Congress 2019 - Disasters and the Future

The 21st biennial World Association for Disaster and Emergency Medicine (WADEM) Congress will take place from **7-10 May 2019** in Australia's third-largest city of Brisbane. Co-hosted by the **Queensland University of Technology**, the Congress aims to provide another innovative and dynamic scientific program in memorable Australia.

C²BRNE DIARY – January 2019

The Congress will be held at the Brisbane Convention and Exhibition Centre, voted the world's best convention center in 2016, nestled in the heart of a thriving riverside cultural, dining, and entertainment hub.

With a theme of "The Future" the Congress will challenge the thinking of more than **600** international participants drawn from all continents and from all areas of health care and emergency management. The Congress will include over **30 tracks** with high profile international and local speakers as well as a range of interactive and innovative sessions designed to maximize the congress experience for participants and create a legacy for the future.

Specific focus will be on *future risks*, the *future community*, *future solutions*, and *future thinking*.

CBRN Special Interest Group will hold a CBRN session with the following topics:

- ◆ Combined CBRNE and trauma management (e.g. Syria, Iraq, elsewhere)
- ◆ CBRNE Casualty management systems
- ◆ Novel agents (e.g. Novichok)
- ◆ CBRNE PPE
- ◆ CBRNE Risk Management
- ◆ Contaminated Evacuation/Retrieval
- ◆ Collective Protection for health facilities
- ◆ CBRNE health training
- ◆ Health in multi-agency response

2019 Virginia Emergency Management Symposium

March 26, 2019 to March 29, 2019

Location: Newport News, VA

The Virginia Emergency Management Symposium provides a forum to discuss current trends and topics and share information about the latest tools and technology in emergency management and homeland security. Sessions encourage stakeholders at all levels of government, the private sector, public health, and related professions to exchange ideas and collaborate to protect lives and property from disaster.

[View Event Details](#)

C²BRNE DIARY – January 2019**Preparedness Summit 2019**

March 26, 2019 to March 29, 2019

Location: St. Louis, MO

The Preparedness Summit is the first and longest running national conference on public health preparedness. The summit presents new research findings, shares tools and resources, and provides a variety of opportunities for attendees to learn how to implement model practices that enhance the nation's capabilities to prepare for, respond to, and recover from disasters and other emergencies. This year's theme is "The Evolving Threat Environment."

[View Event Details](#)

**IAFC Hazardous Materials Response Teams Conference 2019**

June 13, 2019 to June 16, 2019

Location: Baltimore, MD

The International Association of Fire Chief's (IAFC) Hazmat Conference is a four-day event offering hands-on training across a range of essential topics, including: biothreat response and sample collection, incident management, chemical and physical properties of hazardous materials, and management of commercial explosive incidents. Training provides valuable information to successfully meet the demands of a hazardous material response.

[View Event Details](#)

**2019 American Ambulance Association (AAA) Annual Conference & Trade Show**

November 04, 2019 to November 06, 2019

Location: Nashville, TN

Ambulance services are stretched in the face of diminishing reimbursement and an increasingly uncertain political and regulatory climate. Join fellow Emergency Medical Services

C²BRNE DIARY – January 2019

(EMS) leaders at AAA 2019 to share best practices and build strategies for the survival of the industry by reimagining EMS reimbursement, operations, leadership, and human resources.

CBRNe Convergence Canada

Canada has excelled in both civilian and military CBRN for over 100 years. As part of the quadripartite (AUSCANUKUS) it has both delivered and benefitted from the latest scientific research and military doctrine to deal with the CBRN threat. Now CBRNe World, producers of the leading CBRN event, CBRNe Convergence, will be locating themselves in Ottawa/Gatineau for three days to provide a showcase for this learning. Bringing military, civilian and scientific experts together it will

be a chance to learn from the best and take home a practical understanding of how you can deal with this threat, whether it be state or terrorist, better.

NCT South America 2019

After a very successful first edition of NCT South America in Bogotá, NCT is coming back for its second edition: this time to Rio de Janeiro for NCT South America 2019!

C²BRNE DIARY – January 2019

The CBRNe Society's official partnership with the Brazilian Army will bring together high-level decision-makers, experts and first responders in the field of CBRNe and EOD for an amazing three-day conference and exhibition. The event will take place at the Brazilian Ministry of Defense's Copacabana Fort from the 5th to the 7th of February 2019. The conference language will be Spanish.

The Brazilian Armed Forces will kick off the event with an opening by the Brazilian Army Band followed by a live CBRNe capability demonstration illustrating their current CBRNe and C-IED capabilities. A few steps away, Copacabana Fort will host an industry exhibition and expo tour to showcase novel solutions to the ever-evolving CBRNe threats. The expo area will also host the NCT South America Churrasco Welcome Party after the Opening Plenary Session, a unique opportunity for you to network with relevant local, regional and international CBRNe stakeholders over a Caipirinha with views of Copacabana beach!

Day two will continue the NCT South America conference stream, addressing topics related to Brazil's cross-agency CBRNe capability building in preparation for its past High Visibility Events (HVEs), as well as what it has planned ahead. There is much the region and the world can learn from Brazil's cooperation with its regional partners, and its own experience with CBRNe disasters. Having hosted the 2014 FIFA World Cup, the 2016 Summer Olympics amongst the many other HVEs hosted since 2006 and having seen one of the largest radiological accidents to date with the Cs-137 Accident in the Goiânia region, Brazil has key insights and experience in CBRNe Capability development.

NCT South America will also welcome a range of topics, also bringing regional actors and international experts together to discuss cooperation in training for the response to CBRNe and EOD threats in the Latin America Region, regional UXO challenges, and much more! The conference will therefore host high-level decision-makers, academics and first responders from Brazil, Latin America and beyond to share experience and knowledge on the latest CBRNe and EOD threats, to discuss current structures and solutions for making this world a safer and more secure place.

As per our other NCT editions, all participants are invited to the famous NCT Churrasco Networking Reception at the Copacabana Fort and it will be the perfect opportunity to meet relevant actors in the fields of CBRNe and C-IED.

On that note, see you all at Copacabana – ¡Vejo você lá!

IBMATA are pleased to announce that our next European Border Management & Technologies Summit conference and exhibition will take place on the 24th – 25th April 2019 in Istanbul, Turkey.

Turkey provides a fascinating case study for international participants, due to Turkey's geographical location the government has to deal with turbulent borders such as the borders with Iraq and Syria.

The borders are very vast and there is a key importance in monitoring these large borders with the latest border surveillance systems. Turkey is the first destination for many displaced

C²BRNE DIARY – January 2019

civilians from war-torn countries trying to reach the European Union and provides an interesting case study as to how the authorities in Turkey and neighboring nations deal with the large number of migrants.

In October the new Istanbul Airport opened its doors and is now the main gateway into Europe for Asian airlines and passengers. It is believed that the new airport will be the busiest connecting flights airport in the world. The new airport is also equipped with the latest security and check in systems to enable easy passage for passengers connecting flights to mainland Europe.

To be part of the IBMATA Border Management & Technologies Summit please do not hesitate to contact us at info@ibmata.org

If you are interested in speaking, sponsoring or exhibiting at the event please contact Martyn Hill: martyn.hill@ibmata.org or +44 7792 473246.

International Conference on Risks, Security and Citizenship

The second International Conference on Risks, Security and Citizenship will occur on the **28th and 29th of March 2019**, in **Setúbal, Portugal**, subordinated to the theme "Risk Management and Climate Change".

Climate change is now widely recognized as one of the most prominent risks and challenges humanity faces.

We now find signs the climate is changing. The effects of climate change are several and have repercussions in the social, economic and environmental framework.

With this event, we pretend to reflect on the problematic of risk in the context of the implementation of the Sendai Framework for Disaster Risk Reduction 2015-2030 at the local level, in coherence with the three pillars of the international agenda: International Strategy for Disaster Risk Reduction, Objectives of Sustainable Development and the Action Plan for Climate Action.

In this thought we develop a thematic multidisciplinary program for knowledge sharing and the application of methodologies regarding the reduction of Disaster Risk, as well has the safeguard of the security of citizens and their communities.

EUSEM 2019

The European Society for Emergency Medicine (EUSEM) has the honor to invite you to participate in the 13th European Emergency Medicine Congress in the city of Prague. This unique annual event is the major educational activity organized in Europe for emergency

C²BRNE DIARY – January 2019

medicine (EM). Every year the Congress puts together professionals from the in and out of the hospital EM.

At the congress, you will have the opportunity to share your experiences with colleagues from more than 70 different countries, broaden your knowledge through the presentations of more than 200 leaders in the different fields. Participants will be exposed to the state of the art of the actual hot topics of EM. On-hands education is a relevant part of the meeting, encouraging your individual or team participation in the different training course and simulation activities.

On this occasion, we will celebrate EUSEM's 25th anniversary and we are proud to say that this International non-for-profit Organization is growing in the right direction to reach its objectives. Actually EUSEM is representing more than 37 National Societies. We are close to reaching our main mission, the development of emergency medicine as specialty of its own. At EU level, all member countries have the specialty, at different stages of evolution, except for three with good perspectives at least in two for the following year.

The EUSEM annual Congress offers an extraordinary opportunity for several of our goals; it is a melting pot for research and educational projects on an international level. It promotes international collaboration in the field of Emergency Medicine, facilitating practice and knowledge transfer. The meeting creates the seeds for networking creation and cooperation between national associations for Emergency Medicine.

Luis Garcia-Castrillo (Spain)
EUSEM President

2019 Nuclear Deterrence Summit

12-14 February, 2019
Arlington, Virginia

Nuclear Deterrence Summit is the premier event for nuclear deterrence decision-makers to network; get high-level strategic updates from high-profile and expert speakers who are moving the industry forward, and connect with one another to create business for 2019 and beyond.

The event gathers U.S. and international leaders, experts, and industry executives in the field of nuclear deterrence to discuss management of the nuclear complex, the security of the stockpile, arms control negotiations, and strategic policy.

Benefits of Attending

Gather information through conference sessions, such as deterrence outlook, modernization strategy, updates from the National Nuclear Security Agency labs, Congressional initiatives and more!

Network with colleagues and government officials. 40% are senior management executives (VP-level and higher) and 42% are government or military executives.

Join leaders for the timeliest discussions on the United States' role in arms control and nonproliferation, potential changes to U.S. nuclear posture, and the dynamic nature of this country's relationship with international allies and adversaries.

RISE'2019  **CBRNE-MPPM**
9th International Workshop on
Measurement, Prevention, Protection
and Management
of CBRNE Risks

01-03 April 2019
Charleroi, Belgium

RISE 2019 – CBRNE-MPPM

The 9th International Workshop on Measurement, prevention, protection and management of CBRNE risks (CBRNE-MPPM-2019) follows the successful 8th IARP-RISE' 2015 (Risky Intervention-Environmental surveillance) held at the Portuguese Naval Base (BNL) in 2015 and it is aiming to gather high quality original contributions in the CBRNE field and associated CBRNE measurements, prevention, protection and management with the final goal of assessing the most recent developments in this utmost domain of science and technology. The Workshop scope covers a broad spectrum ranging from advanced conceptual and virtual design and methodology, sensors, actuators, instrumentation, and real-time control algorithms to innovative robotics, mobile (ground/aerial/undersea) robotics, personal and collective protection, multilevel rescue operations and management applications. It will contribute to provide a full picture of the state of the art in the area of increasing CBRNE risks.
