C²BRNE-DIARY

Are you organizing a CBRNE-related event? We are interested to become media partners!

What we offer:

- Include a text with photos at the "Upcoming Events" chapter of the Newsletter and keep it there until the conference, workshop, etc;
- Include a full page (or more) of the event in the same or related chapters of the Newsletter (it must be in high resolution .jpg format);
- Incorporate a banner at the home page of the Newsletter with a link to event's website.

What we would like to be offered:

- Inclusion of Newsletter's logo in the website of the event;
- Inclusion of Newsletter's logo in the final program of the event;
- Inclusion of a small text about the Newsletter along with the URL of the Newsletter.

► For more details please contact the Editor-in-Chief at: igalatas@yahoo.com

Headlines for 2019 conferences

1) CBRNe Convergence Canada

Hilton, Lac Leamy, Ottawa, Canada, 15-17 April, 2019

- [CBRNe Convergence](#) provides a showcase for leading speakers in the fields of WMD, HazMat, pathogens, toxic substances, chemical attacks and biological weapons
- Based around the theme of the merging of civilian and military response
- Streamed sessions will enable participants to select the presentations that best suit their needs. Previous events have featured insights from organizations including NATO, Interpol and the FBI.

2) NCT Europe

Venue TBC, Vienna, 25-27 June, 2019

- A [three-day event](#) that will showcase a range of multinational CBRNe capability demonstrations including live C-IED and EOD exercises, workshops for civil and military personnel, an annual conference and an indoor/outdoor industry exhibition.
- The NCT Plenary will present insights from a panel of industry experts from the USA, UK, Asia and Europe.

3) IDEF 14th International Defence Industry Fair

TUYAP Fair Convention and Congress Center, 7-10 May, 2019, Istanbul, Turkey

- An annual event dedicated to the [Euro-Asian defence](#) industry and covering the areas of naval, land, transportation, logistics support activities, aviation, aerospace and equipment.
- Topics will include electronic warfare technologies, armoured fighting vehicles, air defence systems, civilian security systems, military medical equipment and self-protection systems.

4) International Hazardous Materials Response Teams Conference

Hilton Baltimore, Maryland, USA 13 - 16 June, 2019

- Providing the latest classroom, hands-on and field-trip based training on the latest developments of relevance to hazardous materials responders.

C²BRNE DIARY – March 2019

- The [event](#) will cover all aspects of HazMat response, from transportation, safety, and equipment to WMD, mass terrorism, decontamination, bioterrorism and more.
- A HazMat exhibit floor will include demonstrations of hazardous materials equipment.

**5) Defence & Security Equipment International (DESI)
ExCel, London, United Kingdom, 10-13 September 2019**

- An event that brings together representatives from the global defence and security sectors to [showcase](#) the latest in equipment and systems.
- DESI 2019 will focus on five sector-focused zones - air, land naval, security and joint.
- The DESI 2019 Strategic Conferences (Day Zero) will take place on 9 September, 2019.

6) AUSA Annual Meeting and Exhibition

Walter E. Washington Convention Center, Washington DC, USA, October 14-16, 2019.

- The largest [land warfare trade-show](#) in North America, featuring 26,000 registrants from all over the world. Including senior army leaders, top industry members and leading manufacturers.
- The event provides an opportunity for 700+ exhibitors to launch and showcase new products.
- Attendees will be able to see, and try, a vast selection of the latest equipment, machinery, tools

WADEM Congress 2019 - Disasters and the Future

The 21st biennial World Association for Disaster and Emergency Medicine (WADEM) Congress will take

place from **7-10 May 2019** in Australia's third-largest city of Brisbane. Co-hosted by the **Queensland**

University of Technology, the Congress aims to provide another innovative and dynamic scientific program in memorable Australia.

C²BRNE DIARY – March 2019

The Congress will be held at the Brisbane Convention and Exhibition Centre, voted the world's best convention center in 2016, nestled in the heart of a thriving riverside cultural, dining, and entertainment hub.

With a theme of "The Future" the Congress will challenge the thinking of more than **600** international participants drawn from all continents and from all areas of health care and emergency management. The Congress will include over **30 tracks** with high profile international and local speakers as well as a range of interactive and innovative sessions designed to maximize the congress experience for participants and create a legacy for the future.

Specific focus will be on *future risks*, the *future community*, *future solutions*, and *future thinking*.

CBRN Special Interest Group will hold a CBRN session with the following topics:

- ◆ Combined CBRNE and trauma management (e.g. Syria, Iraq, elsewhere)
- ◆ CBRNE Casualty management systems
- ◆ Novel agents (e.g. Novichok)
- ◆ CBRNE PPE
- ◆ CBRNE Risk Management
- ◆ Contaminated Evacuation/Retrieval
- ◆ Collective Protection for health facilities
- ◆ CBRNE health training
- ◆ Health in multi-agency response

2019 Virginia Emergency Management Symposium

March 26, 2019 to March 29, 2019

Location: Newport News, VA

The Virginia Emergency Management Symposium provides a forum to discuss current trends and topics and share information about the latest tools and technology in emergency management and homeland security. Sessions encourage stakeholders at all levels of government, the private sector, public health, and related professions to exchange ideas and collaborate to protect lives and property from disaster.

[View Event Details](#)

Preparedness Summit 2019

March 26, 2019 to March 29, 2019

Location: St. Louis, MO

The Preparedness Summit is the first and longest running national conference on public health preparedness. The summit presents new research findings, shares tools and resources, and provides a variety of opportunities for attendees to learn how to implement model practices

C²BRNE DIARY – March 2019

that enhance the nation’s capabilities to prepare for, respond to, and recover from disasters and other emergencies. This year’s theme is “The Evolving Threat Environment.”

[View Event Details](#)

IAFC Hazardous Materials Response Teams Conference 2019

June 13, 2019 to June 16, 2019

Location: Baltimore, MD

The International Association of Fire Chief’s (IAFC) Hazmat Conference is a four-day event offering hands-on training across a range of essential topics, including: biothreat response and sample collection, incident management, chemical and physical properties of hazardous materials, and management of commercial explosive incidents. Training provides valuable information to successfully meet the demands of a hazardous material response.

[View Event Details](#)

2019 American Ambulance Association (AAA) Annual Conference & Trade Show

November 04, 2019 to November 06, 2019

Location: Nashville, TN

Ambulance services are stretched in the face of diminishing reimbursement and an increasingly uncertain political and regulatory climate. Join fellow Emergency Medical Services (EMS) leaders at AAA 2019 to share best practices and build strategies for the survival of the industry by reimagining EMS reimbursement, operations, leadership, and human resources.

CBRNe Convergence Canada

C²BRNE DIARY – March 2019

Canada has excelled in both civilian and military CBRN for over 100 years. As part of the quadripartite

(AUSCANUKUS) it has both delivered and benefitted from the latest scientific research and military doctrine to deal with the CBRN threat. Now CBRNe World, producers of the leading CBRN event, CBRNe Convergence, will be locating themselves in Ottawa/Gatineau for three days to provide a showcase for this

learning. Bringing military, civilian and scientific experts together it will be a chance to learn from the best and take home a practical understanding of how you can deal with this threat, whether it be state or terrorist, better.

IBMATA are pleased to announce that our next European Border Management & Technologies Summit conference and exhibition will take place on the 24th – 25th April 2019 in Istanbul, Turkey.

Turkey provides a fascinating case study for international participants, due to Turkey's geographical location the government has to deal with turbulent borders such as the borders with Iraq and Syria. The borders are very vast and there is a key importance in monitoring these large borders with the latest border surveillance systems. Turkey is the first destination for many displaced civilians from war-torn countries trying to reach the European Union and provides an interesting case study as to how the authorities in Turkey and neighboring nations deal with the large number of migrants.

In October the new Istanbul Airport opened its doors and is now the main gateway into Europe for Asian airlines and passengers. It is believed that the new airport will be the busiest connecting flights airport in the world. The new airport is also equipped with the latest security and check in systems to enable easy passage for passengers connecting flights to mainland Europe.

To be part of the IBMATA Border Management & Technologies Summit please do not hesitate to contact us at info@ibmata.org

If you are interested in speaking, sponsoring or exhibiting at the event please contact Martyn Hill: martyn.hill@ibmata.org or +44 7792 473246.

C²BRNE DIARY – March 2019**International Conference on Risks, Security and Citizenship**

The second International Conference on Risks, Security and Citizenship will occur on the **28th and 29th of March 2019**, in Setúbal, **Portugal**, subordinated to the theme “Risk Management and Climate Change”.

Climate change is now widely recognized as one of the most prominent risks and challenges humanity faces.

We now find signs the climate is changing. The effects of climate change are several and have repercussions in the social, economic and environmental framework. With this event, we pretend to reflect on the problematic of risk in the context of the implementation of the Sendai Framework for Disaster Risk Reduction 2015-2030 at the local level, in coherence with the three pillars of the international agenda: International Strategy for Disaster Risk Reduction, Objectives of Sustainable Development and the Action Plan for Climate Action.

In this thought we develop a thematic multidisciplinary program for knowledge sharing and the application of methodologies regarding the reduction of Disaster Risk, as well has the safeguard of the security of citizens and their communities.

**EUSEM 2019**

The European Society for Emergency Medicine (EUSEM) has the honor to invite you to participate in the 13th European Emergency Medicine Congress in the city of Prague. This unique annual event is the major educational activity organized in Europe for emergency medicine (EM). Every year the Congress puts together professionals from the in and out of the hospital EM.

At the congress, you will have the opportunity to share your experiences with colleagues from more than 70 different countries, broaden your knowledge through the presentations of more than 200 leaders in the different fields. Participants will be exposed to the state of the art of the actual hot topics of EM. On-hands education is a relevant part of the meeting, encouraging your individual or team participation in the different training course and simulation activities.

C²BRNE DIARY – March 2019

On this occasion, we will celebrate EUSEM's 25th anniversary and we are proud to say that this International non-for-profit Organization is growing in the right direction to reach its objectives. Actually EUSEM is representing more than 37 National Societies. We are close to reaching our main mission, the development of emergency medicine as specialty of its own. At EU level, all member countries have the specialty, at different stages of evolution, except for three with good perspectives at least in two for the following year.

The EUSEM annual Congress offers an extraordinary opportunity for several of our goals; it is a melting pot for research and educational projects on an international level. It promotes international collaboration in the field of Emergency Medicine, facilitating practice and knowledge transfer. The meeting creates the seeds for networking creation and cooperation between national associations for Emergency Medicine.

Luis Garcia-Castrillo (Spain)
EUSEM President

RISE 2019 – CBRNE-MPPM

The 9th International Workshop on Measurement, prevention, protection and management of CBRNE risks (CBRNE-MPPM-2019) follows the successful 8th IARP-RISE' 2015 (Risky Intervention-Environmental surveillance) held at the Portuguese Naval Base (BNL) in 2015 and it is aiming to gather high quality original contributions in the CBRNE field and associated CBRNE measurements, prevention, protection and management with the final goal of assessing the most recent developments in this utmost domain of science and technology. The Workshop scope covers a broad spectrum ranging from advanced conceptual and virtual design and methodology, sensors, actuators, instrumentation, and real-time control algorithms to innovative robotics, mobile (ground/aerial/undersea) robotics, personal and collective protection, multilevel rescue operations and management applications. It will contribute to provide a full picture of the state of the art in the area of increasing CBRNE risks.

NCT Europe 2019

Join us for the 8th edition of NCT Europe's CBRNe, C-IED, and EOD event series in the Museums Quartier in Vienna, Austria from June 25-27 2019! The partnership with the Austrian Ministry of Defense and the Austrian Armed Forces guarantees the presence of regional and international stakeholders: from high level decision-makers, to civil and military first responders. We invite you to take part in the latest discussions on the newest ways to combat

C²BRNE DIARY – March 2019

these ever-evolving threats, whilst passing through the outdoor NCT Industry Exhibition showcasing novel technologies. Vienna is the perfect location for a regional event, as a crossroad between Eastern and Western Europe. Following the NCT Europe tradition, NCT offers the best networking with delegates from around the world whether during the famous NCT Welcome Party, the NCT Expo Tour or the Live capability demonstration.

The event will also host the 4th edition of the intra-agency and international NCT Pro Trainings at NCT Europe 2019. European and international civil and military first responders will train together in a multi-national setting, increasing their interoperability for CBRNe, C-IED and EOD response. This will be preceded with training on the latest technologies provided by the industry sponsors, allowing teams to practice using the state-of-the-art equipment prior to using them in the scenario to train for the most efficient, rapid and coordinated response.

During NCT Europe 2019, you will have the chance to meet leading industry representatives, organizations and high-level decision makers from Europe and beyond contributing their expertise and newest strategies against CBRNe and IED Threats. Delegates will also get a chance to join an NCT Expo Tour by following their topic of interest. They will be introduced to representatives from leading industries demonstrating their latest equipment and showcasing newly developed technologies.

►► Visit conference's website at: <http://nct-europe.com/>

NCT USA 2019

NCT USA is coming back to Washington D.C. for its 5th edition! The leading event on CBRNe, C-IED and EOD will once again welcome key stakeholders including high-level decision-makers, local and federal first responders and industry experts to discuss the latest developments of these evolving threats. The event will be taking place at the Washington Hilton Dulles Hotel from May 7th to 9th 2019 and will host a conference stream, an industry exhibition on the present and future state-of-the-art as well as the newly introduced NCT PRO Trainings in parallel. The CBRNe Society is partnering with the Fairfax County Fire and Rescue Department's HazMat Response Team, ensuring that this event welcomes the best and most experienced in the field of CBRNe.

NCT will be hosting its third edition of the multi-agency, international NCT PRO Trainings at NCT USA 2019. Civil and military first responders will be trained to respond to a real-life CBRNe, C-IED/EOD scenario together with a response team from another local county, from a federal agency, or from a specialized military unit. This will be preceded with training on the latest technologies provided by the industry sponsors, allowing teams to practice using the latest equipment prior to using them in the scenario for the most efficient, rapid and coordinated training.

C²BRNE DIARY – March 2019

Whether during the famous NCT USA BBQ or in the NCT Expo Tour, you will have the chance to meet leading industry representatives, organizations and high-level decision makers from the U.S. and beyond contributing their expertise and newest strategies against CBRNe and IED Threats. In our past editions, we have welcomed representatives from: FEMA, JPEO-CBD, ECBC, FBI, DTRA, DHS, Special Operations Command, NYPD, FDNY, the Boston Bomb Squad and many more!

Delegates will get a chance to join an NCT Expo Tour by following their topic of interest. They will be introduced to representatives from leading industries demonstrating their latest equipment and showcasing newly developed technologies. NCT USA is the best event to meet the delegates relevant to your field of expertise and business in a formal meeting, or informally over a beer during the outdoor static display.

Do not miss out on this opportunity and join us in Washington, DC!
